

# QUANTOR

## **About Quantor short**

Quantor is a music producer and DJ currently based out of Germany. Having grown up in Duisburg, his love for music was sparked at a young age, but it wasn't until 2009 when Quantor produced his first electronic piece as part of his work as a web and media computer scientist. With this new passion ignited, he began to regularly produce trance music and to DJ live gigs. He has gone on to win the final round of the Bootshaus DJ Contest in Cologne in 2018, and has performed for HeavensGate at Nature One since 2017. With credits in music production at SAE Cologne and Hofa GmbH, he is a self-educated artist dedicated to creating unique and driving work. He knows the important role that music can play in the lives of others and continues to strive towards creating music that can touch people's emotions.

## **About Quantor**

Quantor is more than just a special mathematical operator to formalize logical operations. It is an electronic music project founded in 2012 by a German music producer and DJ.

Music has always played a special role in his life. His love of music started when he was just a child, playing on his mother's keyboard. However, his real musical journey started years later by coincidence in 2009. As a web and media computer scientist he was creating a short trailer for a company which needed chillout music. By doing this, his first song "The Infinity" was created and his love for creating music was born. In the years that followed, he created music under the name "Creative Response", an album and various singles with the focus on being creative, improving his production skills and making each track better than the previous one.

In 2012, it was time to make a change and project Quantor was born. With wide experience in music production he was now focused on electronic dance music and changed his style to progressive trance. The first track "Take Off" marks the start of Quantor, which was followed by an EP and some singles. With the track "Rush" and its video of his EP "Existence" he won the artist of the week and artist of the month at Global Rockstar in 2014.

The next step started in January 2016, as he built his own label, Neutronville Records. His new track "Sanctus" marked the start of this new Label. It is an inspiring and very unique psytrance/progressive tune with a beautiful melody line combined with an amazing Gregorian choir.

Quantor played his first DJ gig for the Heavengate Club at Nature One in 2017 with "We call it home" and released his psytrance single "Hero" on Alex M.O.R.P.H.'s very own Label Universal Nation.

In 2018 he couldn't stand still and won the final decision round of the Bootshaus DJ Contest in Cologne. This was followed by various gigs in Germany, one in the Netherlands and of course with Heavensgate at Nature One in 2018. A new PSY-inspired song "Tomorrow" was released at Universal Nation and to mark the end of this spectacular year he did the collab "Horizon" with Woody van Eyden on HeavensGate. What a fantastic year!

In 2019, significant progress was made. This year, he has been fully focused on producing lots of new music. The result is a handful of new Quantor originals and wonderful collaborations like Hunter with Nadi Sunrise and Magma with AxelPolo. Magma has even been featured twice by Above & Beyond on their weekly radio show and once by Cosmic Gate. This is truly breathtaking.

Not to mention the repeated DJ gigs such as 'Destination Goa', Samsuura and as the highlight of this year, Nature One again for their 25th anniversary.

Now, he is a signed artist of a renowned music & artist group and is managed by the trance legend Woody van Eyden. A very exciting time is coming.
